

Domestic Shade Cloth

Technical Specifications

Domestic Shade Cloth is designed for the hardware & fencing industry. The Light and Medium shade factor ranges are ideal for use over pergolas and fixed frames. Domestic shade cloth should not be used in sails or other tension applications as the cloth is not designed to tolerate heavy wind loads. This fabric is not suitable for nurseries which require a very accurate shade factor.

Domestic Shade Cloth comes with a 10 year UV Warranty.

Product	Colours	Roll Dimensions
Medium Nominal 70%	Green, Black or Sandstone	1.83m x 50m 3.66 x 50m

Technical Specifications*	
	Medium
