

Hail Net

Bird Net is especially designed to help the horticulture industry to minimise damage to crops from hail storms and excessive winds. The low shade factor can also assist by offering heat protection to plants and seedlings.

Hail Net has reinforced selvages at 5m & 6m widths, plus centre reinforcement.

Product	Colours	Roll Dimensions
75gsm	White	6m x 100m

Technical Specifications	
Construction	Knitted HDPE
Nominal Shade	Approx 18-20%
Selvages	5 & 6m widths plus centre reinforcement
Weight	75gsm
Breaking Force	169 N/50mm Warp, 203 N/50mm Weft
Ball Burst	466N
Elongation	55.1% Warp, 64.2% Weft
Tear Strength	46.4 N Warp, 37.7 N Weft
Bursting Force	600kPa
Warranty	10 Year Warranty against UV Degradation
